Microsoft®

Space Simulator

for MS-DOS®

With Microsoft Space Simulator, you are a citizen of the universe. With incredible graphics and stunning realism, explore and experience what space is really like. Microsoft Space Simulator brings you interactive, intergalactic exploration that's out of this world!

- Zoom through the Milky Way Galaxy, including the Earth's solar system, moons, comets and asteroids - all realistically rendered based on data from NASA and other sources.
- Challenge your gaming skills, completing scored missions such as Moon or Mars landings.
- Save a scenario for practise or to complete later, use the autopilot and the flight computer to help you travel to your desired location.
- Experience our galaxy's evolution by up to 100,000 years in the past or future or see a specific place to explore using the Observatory.
- Stretch your legs with a space walk in the Manned Manoeuvring Unit.

Microsoft®

Golf 2.0

for Windows™

Experience the true challenge of golf for Windows. Start your game on the driving range and practice green at Firestone, or take to the course itself where you will encounter winds, crowds, chirping birds and plenty of challenging golf - it's all realistic and you have complete control over your game.

- Choose your stance, ball position, club face and swinging plane and then watch an animated golfer take your shot.
- Great looking screens, with textured features, undulating fairways and realistic looking lakes.
- Viewing statistics gives you a feel for how you are playing. Analyse your last shot with instant replay in forward or reverse.
- Scaleable windows, easy set-up, simple entry and exit into the game. Select your own bag of clubs for every game.
- Add to your game by choosing from the following championship golf course add-ons:

Pinehurst, Bannff Springs, Mauna Kea.

Multimedia version on CD-ROM due in 1995.

Microsoft®

Arcade

for Windows™ and the Macintosh™

Microsoft Arcade brings you the fast-action play of five classic arcade games! Take a few minutes out of a busy day to defend your turf or take a few hours and rid the universe of evil intruders! Any way you play Arcade, it's a bona fide blast!

- All the fast and furious action of five great value games.
- Blast into classic arcade action with: Asteroids®, Battlezone™ Centipede®, Missile Command, Tempest™.
- The look and feel of the original coin-operated games on your PC.

Microsoft®

Feel the thrill of full-throttle flight. Revel in the freedom of soaring through the sky. Experience the white-knuckle intensity of a near-crash landing. With stunning photo-realistic scenery and authentic flight sounds, Microsoft Flight Simulator brings you an awesome flying adventure that's as real as it gets.

- The world's most popular and realistic flight adventure for the PC with improved crash effects and flight equations.
- Photo-realistic instrument panel, 3D scenery and authentic flight sounds with improved weather and time of day features.
- Learn to fly and land using flight instructions, quick practice, the Land-Me feature and instant replays.
- Design your own scenery with the Scenery Designer.
- Add more detail to the scenery with the following add-ons:

New York Scenery Enhancement

Paris Scenery Enhancement

NEW - Japan Scenery Enhancement

NEW - Caribbean Scenery Enhancement

INSPIRATIONS IN CHILDREN'S SOFTWARE DEVELOP GROWING MINDS. FINE ARTIST AND CREATIVE WRITER STIMULATE CURIOSITY, IMAGINATION AND LEARNING, THROUGH FUN

Microsoft®

Creative Writer

for Windows™ and the Macintosh™

Creative Writer provides children ages 6-12 with the tools, inspiration and help they need to create great writing projects. With Creative Writer your child will soon be designing his or her own daily newspaper, creating colourful cards and writing and illustrating fantastic stories.

- Get inspiration from the splot machine - 8,000 story starters and 24 picture frame story starters.
- Step-by-step projects from creating cards, to banners and newsletters.
- Over 100 pieces of clip art, dozens of pictures and letter effects.
- English (UK) spell checker and thesaurus.
- Secret document encoder, crazy animations, clickable hot spots, magic wand for playing sounds and animations, joketeller and much more.

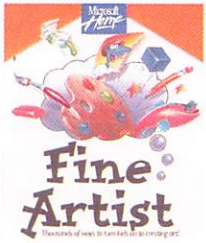
Microsoft®

Creative Writer

for Windows™ and the Macintosh™ on one CD-ROM

Creative Writer provides children ages 6-12 with the tools, inspiration and help they need to create great writing projects including illustrated stories, newspapers, banners and cards. In the CD-ROM edition new this year, Creative Writer is exploding with new content and we have put both the Windows and Macintosh versions on ONE CD-ROM.

- 500 new stickers, 300 new sounds, 25 new cards, 8 banners, 9 new backgrounds, 20 new borders, 50 new picture windows.
- Themes browser suggesting stories to get the creative juices flowing.
- More than 100 items of clip art, pictures, headlines, page backgrounds, borders, plus sound clips to attach to words.



Microsoft®

Fine Artist

for Windows™ and the Macintosh™

Fine Artist provides children ages 6-12 with the tools, inspiration, and help they need to create great art projects including animated pictures, comic strips, buttons, stickers, and multimedia picture shows. Fine Artist will stimulate their senses and let their talent flow across the broadest canvas imaginable.

- Over 72 different paintbrush styles.
- Over 100 pieces of clip art and animations, dozens of sound clips and letter effects.
- Basic lessons, 3D lessons and step-by-step projects for comic strips, stickers, buttons and slide shows.
- Crazy animations, clickable hot spots, magic wand, joketeller, lift and firepole for building navigation - it's all good fun!

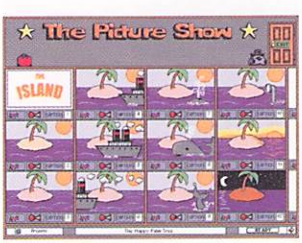
Microsoft®

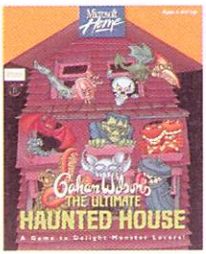
Fine Artist

for Windows™ and the Macintosh™ on one CD-ROM

Fine Artist is a complete art programme for children ages 6-12. Fine Artist gives children the tools, inspiration, and help they need to create great art projects including animated pictures, comic strips, buttons, stickers, and multimedia picture shows. Fine Artist will stimulate their senses and let their talent flow across the broadest canvas imaginable. In the CD-ROM edition new this year, Fine Artist is exploding with more inspiration and we have put both the Windows and Macintosh version on ONE CD-ROM.

- 300+ wacky sounds are ready for kids to use in their creation. Over 600 unusual stickers including 50 new animated stickers!
- The Theme of Creativity - design a multimedia picture show for all seasons, add playground sounds to the summer scene, an animated school bus to the autumn scene, and an animated snow fill to the winter scene.
- Basic lessons, 3D lessons and slide shows.





Microsoft®

Gahan Wilson's Ultimate Haunted House

CD-ROM for Windows™ and the Macintosh™

Gahan Wilson's Ultimate Haunted House is a multimedia game for children age 8-12 years old. This is an entertaining and fun game that challenges children to find out how to get out of a 3 storey haunted house which is inhabited by ghouls, ghosts, monsters, objects and characters which reside in 13 rooms. The goal is to find the missing 13 keys by collecting and trading up to 50 objects with the house's inhabitants and getting out of the house before the clock strikes it's 13th hour.

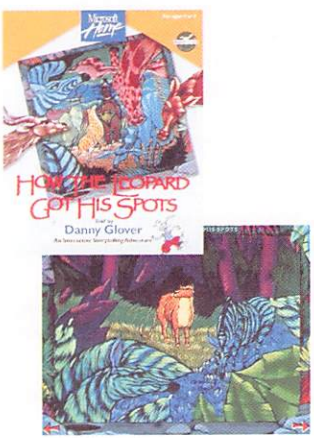
- Children will have to use logic, gather clues and play the game via trial and error to figure out which objects the house's inhabitants like or dislike in order to find the 13 missing keys.
- An exciting multimedia game full of scary sounds, animation's and video.
- Play again and again, the game has been designed so that the house's objects, missing keys, monsters and characters randomly appear in no set order throughout the house's mysterious 13 rooms.

Microsoft®

How The Leopard Got His Spots©

CD-ROM for Windows™

A children's classic storybook that allows children to explore, listen, read, learn and play. Based on the story by Rudyard Kipling and narrated by Hollywood actor Danny Glover, this incredible multimedia storybook shows children, in a fun way, how animals camouflage themselves against predators. Children can have the story read to them, or can open the storybook and follow along as the text is highlighted as read. How The Leopard Got His Spots also contains games and puzzles to help them learn about Africa, its culture and animals.



Microsoft® Scholastic's

The Magic School Bus™ Explores the Human Body

CD-ROM for Windows™

This is a fully animated, interactive multimedia science adventure for children ages 6-10. Inspired by Scholastic Inc.'s award-winning book series, this CD-ROM software is designed to entertain and encourage a sense of adventure and exploration in children. The product features the irrepressible science teacher, Ms Frizzle, and her inquisitive class in a fascinating exploration of the human body. Children can tour 12 different body parts from the brain to the mouth to the large intestines. This is an adventure that children can control.

- Children drive the bus allowing them to explore areas of interest at their own pace.
- It gives children the opportunity to explore science concepts such as digestion, how the nervous system works and how body parts function as part of the whole.
- More than 200 "clickables" that engage children and encourage exploration.
- More than 20 multimedia reports, including facts and jokes about the human body, all from a child's view.
- Informative experiments at each of the 12 body parts.

Microsoft® Scholastic's

The Magic School Bus™ Explores the Solar System

CD-ROM for Windows™

A fully animated, interactive multimedia science adventure for children ages 6-10. Inspired by Scholastic Inc.'s award-winning book series, this CD-ROM software is designed to entertain and encourage a sense of adventure and exploration. The product features the irrepressible science teacher, Ms Frizzle, and her inquisitive class in a fascinating exploration of the solar system. Children can drive the Magic School Bus to any planet, land and explore the surface.

- Children drive the bus allowing them to explore areas of interest at their own pace.
- It gives children the opportunity to explore science concepts such as gravity and "planetary" information.
- Ten multimedia class reports, including facts, animations, videos and jokes about the planets and the solar system.
- More than 200 "clickables" that engage children and encourage exploration.
- Children must find Ms Frizzle who is in outer space.
- Incredible 3D animations to keep children amused.

Audrey Hepburn
(1929 - 1993)
Biography from Baseline's Encyclopedia of Film
Copy
Print
Occupation: Actress
Birth Name: Edda van Heemstra Hepburn-Ruston
Born: May 4, 1929, Brussels, Belgium
Died: January 20, 1993, Tolochenaz, near Lausanne, Switzerland
Education: Arnhem Conservatory (ballet)
Graceful former model, in films from 1951. After small parts in European productions, Hepburn gained immediate prominence in the US with Roman Holiday (1953), which was followed by similarly enchanting performances in films such as Funny Face (1957) and, as Holly Golightly, Breakfast at Tiffany's (1961). She proved a beautiful, elegant foil to fatherly older men Gary Cooper, Humphrey Bogart and Fred Astaire, as well as young leads George Peppard and Albert Finney.
After a nine-year absence from the screen Hepburn turned in an impressive "middle-aged" performance in Robin and Marian (1976) and has continued to make

Microsoft®

Home Mouse

The Home Mouse is a new innovative Mouse from Microsoft. Designed for all Home PC users from the ages of 6 to 60+, with new "IntelliPoint Software - Home Edition" which allows you to customise your PC to optimise your creativity and productivity.

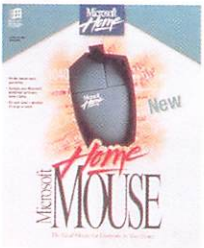
- The unique design, with roof-shaped keys and a chimney-like cord connection, accommodates a wide range of hand sizes so all family members can comfortably grasp the Mouse, be they left or right handed.
- It is designed to provide fun and productivity in the home computing environment.
- "IntelliPoint Software - Home Edition" gives you more control, with innovative features such as:

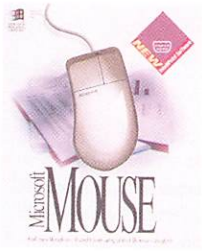
Pointer Appearance - change your pointer into a pizza slice or many other alternatives.

Single Click Option - allow "One Click" to work like a double click.

Mouse Trails and Sonar Circles - allows quick location of a lost pointer.

- Other features include: Size or Pointer option, Double Click adjustment, Speed and Acceleration options.





Microsoft®

Mouse 2.0 with IntelliPoint

Breakthrough ergonomic research and innovative features make the new Microsoft Mouse 2.0 the ultimate pointing device for the Windows™ operating system. The new "IntelliPoint Software" allows you to customise your PC to optimise your productivity. Get your hands on the most comfortable Microsoft Mouse ever! Mouse 2.0 sets new standards for ergonomics, accuracy, responsiveness and reliability.

- Mouse 2.0 is the ergonomic Mouse, the shape is designed for comfort, hand support, and optimum responsiveness.
- "IntelliPoint Software" gives you more control, with innovative features such as:

On Screen Tool Bar - allowing easy access to software.

Single Click Option - allowing "One click" to work like a double click.

Magnify - allowing up to 6 times the magnification of your worksheet.

- Other features include: Button Select, Screen Wrap, and Smart Speed.

Microsoft®

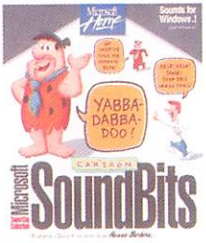
Natural Keyboard

Responsibly designed for maximum comfort, following extensive ergonomic and usability research, the new Microsoft Natural Keyboard lets you work comfortably by more naturally positioning and supporting your hands, wrists, and forearms. Discover a more natural hand position for comfortable computing.

- Built in palm-rest which provides a proper resting surface for the palms between typing.
- Enhanced Task Manager, provides a simple interface to switch and launch documents or programmes and to manage the desktop layout.
- The Wrist Leveller located underneath the front palm rest promotes a natural wrist position over a range of desk heights.
- Control the mouse pointer from the numeric keys.
- IntelliType Software allows you to customise the way you work with the Natural Keyboard, with options such as:

Adjust speed of cursor blink.

"Sounds" - make your keyboard sound like a typewriter!



Microsoft®

Soundbits™

Now you can make Windows sound as good as its looks. Three fun-filled collections feature sound clips you can add to make using your home computer more entertaining!

- Cartoon Clips from Hanna-Barbera® - this classic cartoon clip collection includes sounds from the Flintstones, Yogi Bear, Scooby-Doo and many more!
- Classic Hollywood Movies - Hear famous lines from some great movie classics delivered by the original actors.
- Musical Instruments from Around the World - this collection lets you play unique musical sounds from around the world.

(A sound card is required).

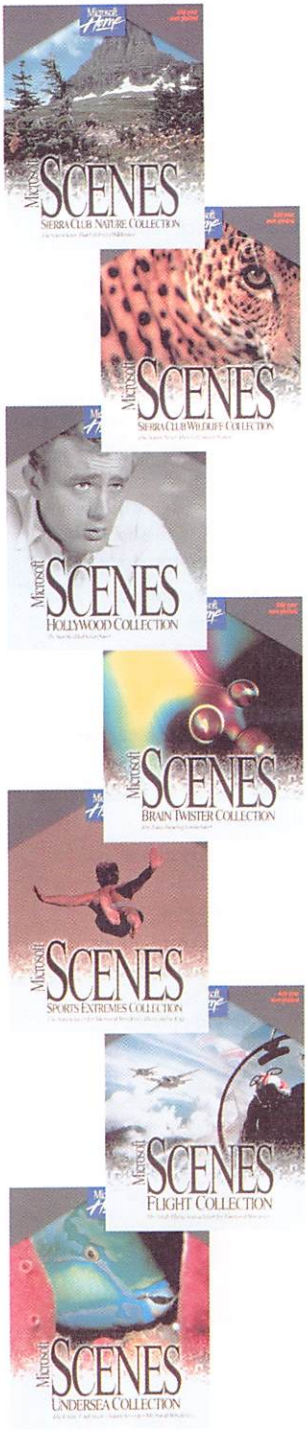
Microsoft®

Scenes 2.0

for Windows™

Microsoft Scenes are photographic screen savers for Windows. Experience seven exclusive collections where each one gives you 40 photographic images of incredible quality. More than an effective way of protecting your screen, it is a fascinating and rewarding visual experience. You can now easily add your own photographs to create personalised screen savers.

- Sierra Club Nature Collection - scenes from the magnificent North American wilderness.
- Sierra Club Wildlife Collection - pictures of rare and endangered species.
- Hollywood Collection - classic black and white photos of stars of the silver screen.
- Brain Twister Collection - unusual and visually ambiguous images, from the man-made to the natural, including popular 3-D stereograms.
- Sports Extremes Collection - pictures of people pitted against nature in white-knuckle scenes.
- Flight Collection - heart pounding combat and action stills of some fantastic planes.
- Undersea Collection - an undersea adventure featuring creatures of the deep.



WHICH PERSONAL COMPUTER DO YOU NEED?

Finding the right Personal Computer to run your Microsoft Home Software couldn't be easier. The following is a guide to the recommended minimum system requirements for most Microsoft applications. Please check individual product requirements with your retailer before purchasing.

Windows-based applications:

PC using 486SX processor or higher microprocessor (some titles will run on 386SX, consult your reseller).

- 25MHZ.
- 4MB RAM.
- 120 MB hard disk.
- 3.5" high-density disk drive.
- VGA or Super VGA display.
- Microsoft Mouse or compatible pointing device.
- MS-DOS operating system 3.2 or later; Microsoft Windows 3.1 or later.

Windows-based multimedia applications on CD-ROM also require:

- CD-ROM drive - dual speed or faster.
- Sound card.
- Speakers or headphones.

Macintosh-based applications:

- Colour Macintosh II or higher.
- System 7 or higher.
- 8 MB RAM.

Macintosh-based multimedia applications on CD-ROM also require:

- Apple-Macintosh-compatible CD-ROM drive.

Note: Microsoft Scholastic's Magic School Bus titles have some higher system specifications. These are a minimum of:

- SVGA (25 colours) monitor.
- Double Speed CD-ROM drive.
- MS-DOS 5.0 or later.
